CC-07.10.008 Example: the Chief Risk Officer receives a request to extend an exception under clause CC-07.06.025 for Equipment Finance (Tier 4 / West Zone) serving exporters to 64 days. Because the maximum permitted period is 60 days, the request cannot be approved under that clause and must be declined.

CC-09.10.026 Example: a agri-processors customer applies for Bank Guarantee Facility (Tier 5 / North-East Zone) of INR 418 lakh. Under clause CC-09.02.006, the margin on security is set at 37.9% as a floor, which on this request equates to INR 158.42 lakh; the case is therefore routed to the Chief Credit Officer for sign-off.

CC-09.10.027 Example: the Chief Credit Officer receives a request to extend an exception under clause CC-09.06.024 for Bank Guarantee Facility (Tier 4 / North Zone) serving small enterprises to 74 days. Because the maximum permitted period is 60 days, the request cannot be approved under that clause and must be declined.

CC-09.10.028 Example: the Senior Officer receives a request to extend an exception under clause CC-09.06.009 for Bank Guarantee Facility (Tier 5 / Islands Zone) serving non-banking financial companies to 30 days. Because the maximum permitted period is 17 days, the request cannot be approved under that clause and must be declined.

CC-09.10.029 Example: a public sector undertakings customer applies for Bank Guarantee Facility (Tier 4 / Central Zone) of INR 227 lakh. Under clause CC-09.02.005, the maximum facility tenor is set at 22 months as a ceiling, so a proposed maximum facility tenor of 22 months is within the limit.

CC-09.10.030 Example: a service-sector firms customer applies for Bank Guarantee Facility (Tier 5 / North-East Zone) of INR 26 lakh. Under clause CC-09.02.026, the maximum facility tenor is set at 146 months as a ceiling, so a proposed maximum facility tenor of 130 months is within the limit.

CC-09.10.031 Example: a service-sector firms customer applies for Bank Guarantee Facility (Tier 1 / East Zone) of INR 133 lakh. Under clause CC-09.02.003, the leverage ratio (debt to equity) is set at 1.48x as a ceiling, so a proposed leverage ratio (debt to equity) of 1.84x is outside the limit and must be escalated to the Head of Function.

CC-09.10.032 Example: the Chief Risk Officer receives a request to extend an exception under clause CC-09.06.005 for Bank Guarantee Facility (Tier 4 / West Zone) serving small enterprises to 47 days. Because the maximum permitted period is 45 days, the request cannot be approved under that clause and must be declined.

CC-09.10.033 Example: a agri-processors customer applies for Bank Guarantee Facility (Tier 1 / Central Zone) of INR 164 lakh. Under clause CC-09.02.002, the current ratio is set at 1.41x as a floor, so a proposed current ratio of 1.82x is within the limit.

CC-09.10.034 Example: during a review of Bank Guarantee Facility (Tier 5 / Metro Zone), the overdue receivables ratio for a start-ups account measured 33.7% against the trigger of 33.6% in clause CC-09.04.011. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause CC-09.04.011.

CC-09.10.035 Example: during a review of Bank Guarantee Facility (Tier 2 / North-East Zone), the irregularity days in the account for a manufacturing units account measured 68 days against the trigger of 54 days in clause CC-09.07.023. Because the reading breached the trigger, the Head of Function must notify the Risk Management Committee of the Board within 72 hours and refer the account to the Special Monitoring Unit.

CC-09.10.036 Example: the Chief Risk Officer receives a request to extend an exception under clause CC-09.06.032 for Bank Guarantee Facility (Tier 1 / West Zone) serving exporters to 4 days. Because the maximum permitted period is 22 days, the request can be approved at this level.

CC-09.10.037 Example: during a review of Bank Guarantee Facility (Tier 4 / Central Zone), the overdue receivables ratio for a real estate developers account measured 10.4% against the trigger of 14.3% in clause CC-09.04.002. Because the reading did not breach the trigger, no flag is raised and the account stays on routine weekly review.

CC-09.10.038 Example: a public sector undertakings customer applies for Bank Guarantee Facility (Tier 4 / East Zone) of INR 241 lakh. Under clause CC-09.02.033, the margin on security is set at 43.1% as a floor, which on this request equates to INR 103.87 lakh; the case is therefore routed to the Chief Risk Officer for sign-off.

CC-09.10.039 Example: a agri-processors customer applies for Bank Guarantee Facility (Tier 1 / Central Zone) of INR 113 lakh. Under clause CC-09.02.002, the current ratio is set at 1.41x as a floor, so a proposed current ratio of 1.50x is within the limit.

CC-09.10.040 Example: during a review of Bank Guarantee Facility (Tier 4 / Central Zone), the interest coverage ratio for a start-ups account measured 1.10x against the trigger of 1.19x in clause CC-09.07.008. Because the reading breached the trigger, the Regional Head must notify the Executive Management Committee within 36 hours and place the borrower under enhanced monitoring.

CC-09.10.041 Example: during a review of Bank Guarantee Facility (Tier 5 / Islands Zone), the overdue receivables ratio for a real estate developers account measured 33.0% against the trigger of 39.3% in clause CC-09.07.034. Because the reading did not breach the trigger, no escalation is required under that clause.

Under clause CC-10.02.038, the maximum facility tenor is set at 134 months as a ceiling, so a proposed maximum facility tenor of 138 months is outside the limit and must be escalated to the Assistant Vice President.

CC-10.10.034 Example: the Head of Function receives a request to extend an exception under clause CC-10.06.018 for Commercial Real Estate Loan (Tier 4 / South Zone) serving micro enterprises to 51 days. Because the maximum permitted period is 66 days, the request can be approved at this level.

CC-10.10.035 Example: during a review of Commercial Real Estate Loan (Tier 3 / Metro Zone), the irregularity days in the account for a micro enterprises account measured 46 days against the trigger of 54 days in clause CC-10.04.020. Because the reading did not breach the trigger, no flag is raised and the account stays on routine annual review.

CC-10.10.036 Example: during a review of Commercial Real Estate Loan (Tier 2 / East Zone), the overdue receivables ratio for a public sector undertakings account measured 28.5% against the trigger of 40.2% in clause CC-10.07.011. Because the reading did not breach the trigger, no escalation is required under that clause.

CC-10.10.037 Example: the Senior Officer receives a request to extend an exception under clause CC-10.06.003 for Commercial Real Estate Loan (Tier 4 / West Zone) serving manufacturing units to 27 days. Because the maximum permitted period is 12 days, the request cannot be approved under that clause and must be declined.

CC-10.10.038 Example: a service-sector firms customer applies for Commercial Real Estate Loan (Tier 1 / Central Zone) of INR 126 lakh. Under clause CC-10.02.014, the maximum single-obligor exposure is set at INR 162 crore as a ceiling, so a proposed maximum single-obligor exposure of INR 209 crore is outside the limit and must be escalated to the Assistant Vice President.

CC-10.10.039 Example: the Senior Officer receives a request to extend an exception under clause CC-10.06.033 for Commercial Real Estate Loan (Tier 3 / Metro Zone) serving start-ups to 44 days. Because the maximum permitted period is 62 days, the request can be approved at this level.

CC-10.10.040 Example: during a review of Commercial Real Estate Loan (Tier 4 / South Zone), the interest coverage ratio for a start-ups account measured 1.87x against the trigger of 1.62x in clause CC-10.07.006. Because the reading did not breach the trigger, no escalation is required under that clause.

CC-10.10.041 Example: a small enterprises customer applies for Commercial Real Estate Loan (Tier 1 / East Zone) of INR 143 lakh. Under clause CC-10.02.030, the debt-service coverage ratio is set at 2.56x as a floor, so a proposed debt-service coverage ratio of 2.58x is within the limit.
