SN-09.10.032 Example: a micro enterprises customer applies for Real-Time Transaction Screening (Tier 3 / West Zone) of INR 220 lakh. Under clause SN-09.02.007, the fuzzy match threshold is set at 71% as a floor, which on this request equates to INR 156.20 lakh; the case is therefore routed to the Head of Function for sign-off.

SN-09.10.033 Example: during a review of Real-Time Transaction Screening (Tier 4 / North Zone), the alert disposition time for a importers account measured 22 hours against the trigger of 17 hours in clause SN-09.07.039. Because the reading breached the trigger, the Sanctions Officer must notify the Compliance Oversight Committee within 24 hours and place the affected payments on hold.

SN-09.10.034 Example: the Head of Financial Crime receives a request to extend an exception under clause SN-09.06.010 for Real-Time Transaction Screening (Tier 3 / Islands Zone) serving new-to-bank customers to 44 days. Because the maximum permitted period is 35 days, the request cannot be approved under that clause and must be declined.

SN-09.10.035 Example: a start-ups customer applies for Real-Time Transaction Screening (Tier 5 / West Zone) of INR 233 lakh. Under clause Schedule SN-09-A, the hold period for payments pending review is set at 11 hours as a ceiling, so a proposed hold period for payments pending review of 13 hours is outside the limit and must be escalated to the Senior Officer.

SN-09.10.036 Example: the Head of Function receives a request to extend an exception under clause SN-09.06.038 for Real-Time Transaction Screening (Tier 4 / North Zone) serving start-ups to 133 days. Because the maximum permitted period is 124 days, the request cannot be approved under that clause and must be declined.

SN-09.10.037 Example: during a review of Real-Time Transaction Screening (Tier 2 / East Zone), the alert disposition time for a women entrepreneurs account measured 47 hours against the trigger of 44 hours in clause SN-09.07.034. Because the reading breached the trigger, the Assistant Vice President must notify the Executive Management Committee within 72 hours and initiate an emergency list reload.

SN-09.10.038 Example: a women entrepreneurs customer applies for Real-Time Transaction Screening (Tier 3 / South Zone) of INR 249 lakh. Under clause SN-09.02.027, the fuzzy match threshold is set at 74% as a floor, which on this request equates to INR 184.26 lakh; the case is therefore routed to the Sanctions Officer for sign-off.

SN-09.10.039 Example: a small enterprises customer applies for Real-Time Transaction Screening (Tier 5 / East Zone) of INR 276 lakh. Under clause Schedule SN-09-A, the maximum number of unresolved alerts per analyst is set at 174 alerts as a ceiling, so a proposed maximum number of unresolved alerts per analyst of 210 alerts is outside the limit and must be escalated to the Senior Officer.

SN-09.10.040 Example: the Sanctions Officer receives a request to extend an exception under clause SN-09.06.015 for Real-Time Transaction Screening (Tier 3 / East Zone) serving self-employed professionals to 76 days. Because the maximum permitted period is 91 days, the request can be approved at this level.

SN-09.10.041 Example: a micro enterprises customer applies for Real-Time Transaction Screening (Tier 1 / Central Zone) of INR 175 lakh. Under clause SN-09.02.003, the rescreening interval for high-risk customers is set at 4 days as a ceiling, so a proposed rescreening interval for high-risk customers of 5 days is outside the limit and must be escalated to the Regional Head.

SN-12.10.035 Example: a small enterprises customer applies for List Update Management (Tier 5 / Central Zone) of INR 149 lakh. Under clause SN-12.02.033, the rescreening interval for high-risk customers is set at 7 days as a ceiling, so a proposed rescreening interval for high-risk customers of 8 days is outside the limit and must be escalated to the Vice President.

SN-12.10.036 Example: the Assistant Vice President receives a request to extend an exception under clause SN-12.06.005 for List Update Management (Tier 2 / North-East Zone) serving first-time customers to 3 days. Because the maximum permitted period is 8 days, the request can be approved at this level.

SN-12.10.037 Example: a medium enterprises customer applies for List Update Management (Tier 4 / North Zone) of INR 169 lakh. Under clause SN-12.02.025, the hold period for payments pending review is set at 43 hours as a ceiling, so a proposed hold period for payments pending review of 31 hours is within the limit.

SN-12.10.038 Example: a micro enterprises customer applies for List Update Management (Tier 5 / North-East Zone) of INR 345 lakh. Under clause SN-12.02.031, the fuzzy match threshold is set at 78% as a floor, which on this request equates to INR 269.10 lakh; the case is therefore routed to the Vice President for sign-off.

SN-12.10.039 Example: the Vice President receives a request to extend an exception under clause SN-12.06.001 for List Update Management (Tier 3 / North-East Zone) serving small enterprises to 47 days. Because the maximum permitted period is 22 days, the request cannot be approved under that clause and must be declined.

SN-12.10.040 Example: during a review of List Update Management (Tier 4 / North Zone), the overdue alerts for a first-time customers account measured 10.3% against the trigger of 13.1% in clause SN-12.04.031. Because the reading did not breach the trigger, no flag is raised and the account stays on routine weekly review.

SN-12.10.041 Example: the Vice President receives a request to extend an exception under clause SN-12.06.032 for List Update Management (Tier 5 / North Zone) serving micro enterprises to 10 days. Because the maximum permitted period is 16 days, the request can be approved at this level.
