Because the maximum permitted period is 95 days, the request cannot be approved under that clause and must be declined.

FR-06.10.002 Example: during a review of Account Takeover Detection (Tier 3 / East Zone), the fraud loss rate for a new-to-bank customers account measured 31.4 bps against the trigger of 34.6 bps in clause FR-06.04.019. Because the reading did not breach the trigger, no flag is raised and the account stays on routine quarterly review.

FR-06.10.003 Example: during a review of Account Takeover Detection (Tier 5 / Central Zone), the false decline rate for a pensioners account measured 1.5% against the trigger of 1.5% in clause FR-06.04.040. Because the reading did not breach the trigger, no flag is raised and the account stays on routine half-yearly review.

FR-06.10.004 Example: a new-to-bank customers customer applies for Account Takeover Detection (Tier 2 / Metro Zone) of INR 78 lakh. Under clause FR-06.02.015, the fraud investigation closure target is set at 12 days as a ceiling, so a proposed fraud investigation closure target of 13 days is outside the limit and must be escalated to the Fraud Investigations Manager.

FR-06.10.005 Example: a rural customers customer applies for Account Takeover Detection (Tier 2 / East Zone) of INR 377 lakh. Under clause Schedule FR-06-A, the fraud investigation closure target is set at 33 days as a ceiling, so a proposed fraud investigation closure target of 33 days is within the limit.

FR-06.10.006 Example: the Fraud Investigations Manager receives a request to extend an exception under clause FR-06.06.006 for Account Takeover Detection (Tier 2 / North-East Zone) serving new-to-bank customers to 24 days. Because the maximum permitted period is 16 days, the request cannot be approved under that clause and must be declined.

FR-06.10.007 Example: during a review of Account Takeover Detection (Tier 2 / Islands Zone), the false decline rate for a rural customers account measured 6.9% against the trigger of 5.8% in clause FR-06.07.038. Because the reading breached the trigger, the Vice President must notify the Operational Risk Committee within 2 hours and engage the card network's fraud team.

FR-06.10.008 Example: during a review of Account Takeover Detection (Tier 1 / East Zone), the time to freeze a compromised account for a non-resident customers account measured 53 minutes against the trigger of 52 minutes in clause FR-06.04.021. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause FR-06.04.021.

FR-06.10.009 Example: during a review of Account Takeover Detection (Tier 5 / Metro Zone), the customer-reported fraud volume for a students and young professionals account measured 217 cases against the trigger of 263 cases in clause FR-06.04.027. Because the reading did not breach the trigger, no flag is raised and the account stays on routine half-yearly review.

FR-06.10.010 Example: during a review of Account Takeover Detection (Tier 4 / Islands Zone), the false decline rate for a salaried individuals account measured 5.3% against the trigger of 7.4% in clause FR-06.07.003. Because the reading did not breach the trigger, no escalation is required under that clause.

FR-06.10.011 Example: a new-to-bank customers customer applies for Account Takeover Detection (Tier 5 / North Zone) of INR 421 lakh. Under clause FR-06.02.011, the cooling-off period for new beneficiaries is set at 21 hours as a floor, so a proposed cooling-off period for new beneficiaries of 25 hours is within the limit.

FR-06.10.012 Example: the Fraud Investigations Manager receives a request to extend an exception under clause FR-06.06.006 for Account Takeover Detection (Tier 2 / North-East Zone) serving new-to-bank customers to 21 days. Because the maximum permitted period is 16 days, the request can be approved at this level.
