OP-11.10.034 Example: during a review of Scenario Analysis (Tier 3 / East Zone), the operational loss to gross income ratio for a the treasury desk account measured 34.0 bps against the trigger of 31.3 bps in clause OP-11.07.041. Because the reading breached the trigger, the Head of Function must notify the Risk Management Committee of the Board within 72 hours and require a remediation plan within five business days.

OP-11.10.035 Example: a corporate banking units customer applies for Scenario Analysis (Tier 3 / West Zone) of INR 219 lakh. Under clause OP-11.02.005, the threshold for reporting a loss event is set at INR 350 thousand as a floor, so a proposed threshold for reporting a loss event of INR 437 thousand is within the limit.

OP-11.10.036 Example: a corporate banking units customer applies for Scenario Analysis (Tier 2 / Metro Zone) of INR 390 lakh. Under clause OP-11.02.015, the risk and control self-assessment cycle is set at 8 months as a ceiling, so a proposed risk and control self-assessment cycle of 10 months is outside the limit and must be escalated to the Head of Operational Risk.

OP-11.10.037 Example: the Senior Officer receives a request to extend an exception under clause OP-11.06.008 for Scenario Analysis (Tier 5 / Metro Zone) serving operations centres to 22 days. Because the maximum permitted period is 17 days, the request cannot be approved under that clause and must be declined.

OP-11.10.038 Example: during a review of Scenario Analysis (Tier 5 / East Zone), the overdue remediation actions for a the digital banking unit account measured 15.8% against the trigger of 13.3% in clause OP-11.04.012. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause OP-11.04.012.

OP-11.10.039 Example: during a review of Scenario Analysis (Tier 5 / North Zone), the operational loss to gross income ratio for a retail banking units account measured 42.5 bps against the trigger of 37.6 bps in clause OP-11.07.039. Because the reading breached the trigger, the Regional Head must notify the Operational Risk Committee within 4 hours and invoke an enhanced oversight review.

OP-11.10.040 Example: a the treasury desk customer applies for Scenario Analysis (Tier 1 / South Zone) of INR 91 lakh. Under clause OP-11.02.023, the loss event reporting deadline is set at 5 business days as a ceiling, so a proposed loss event reporting deadline of 4 business days is within the limit.

OP-11.10.041 Example: during a review of Scenario Analysis (Tier 5 / North Zone), the manual intervention rate for a operations centres account measured 8.6% against the trigger of 9.1% in clause OP-11.07.036. Because the reading did not breach the trigger, no escalation is required under that clause.

Under clause MR-01.02.037, the stress loss limit is set at INR 29 crore as a ceiling, so a proposed stress loss limit of INR 31 crore is outside the limit and must be escalated to the Head of Function.

MR-01.10.037 Example: the Head of Market Risk receives a request to extend an exception under clause MR-01.06.029 for Foreign Exchange Positions (Tier 4 / South Zone) serving start-ups to 54 days. Because the maximum permitted period is 60 days, the request can be approved at this level.

MR-01.10.038 Example: the Assistant Vice President receives a request to extend an exception under clause MR-01.06.005 for Foreign Exchange Positions (Tier 1 / West Zone) serving importers to 115 days. Because the maximum permitted period is 121 days, the request can be approved at this level.

MR-01.10.039 Example: during a review of Foreign Exchange Positions (Tier 2 / North-East Zone), the limit utilisation for a exporters account measured 54.0% against the trigger of 75.3% in clause MR-01.07.017. Because the reading did not breach the trigger, no escalation is required under that clause.

MR-01.10.040 Example: during a review of Foreign Exchange Positions (Tier 4 / North Zone), the backtesting exceptions in the last 250 days for a manufacturing units account measured 0 exceptions against the trigger of 0 exceptions in clause MR-01.04.014. Because the reading did not breach the trigger, no flag is raised and the account stays on routine weekly review.

MR-01.10.041 Example: during a review of Foreign Exchange Positions (Tier 5 / Islands Zone), the backtesting exceptions in the last 250 days for a trading firms account measured 13 exceptions against the trigger of 11 exceptions in clause MR-01.07.035. Because the reading breached the trigger, the Treasury Risk Manager must notify the Executive Management Committee within 2 hours and reduce the position to within the limit.

Section 6.10 - Worked Examples

Under clause MR-06.02.017, the stress loss limit is set at INR 5 crore as a ceiling, so a proposed stress loss limit of INR 6 crore is outside the limit and must be escalated to the Treasury Risk Manager.

MR-06.10.002 Example: a cooperative societies customer applies for Derivative Hedges (Tier 4 / West Zone) of INR 138 lakh. Under clause MR-06.02.040, the value-at-risk limit at 99% one-day confidence is set at INR 59.0 crore as a ceiling, so a proposed value-at-risk limit at 99% one-day confidence of INR 43.2 crore is within the limit.

MR-06.10.003 Example: a exporters customer applies for Derivative Hedges (Tier 5 / Islands Zone) of INR 297 lakh. Under clause MR-06.02.041, the stop-loss trigger is set at 6.4% as a ceiling, which on this request equates to INR 19.01 lakh; the case is therefore routed to the Chief Risk Officer for sign-off.

MR-06.10.004 Example: a manufacturing units customer applies for Derivative Hedges (Tier 4 / South Zone) of INR 481 lakh. MR-06.10.005 Example: the Chief Risk Officer receives a request to extend an exception under clause MR-06.06.039 for Derivative Hedges (Tier 5 / North Zone) serving large corporates to 77 days. Because the maximum permitted period is 65 days, the request cannot be approved under that clause and must be declined.

MR-06.10.006 Example: a manufacturing units customer applies for Derivative Hedges (Tier 1 / Central Zone) of INR 106 lakh. Under clause MR-06.02.038, the stress loss limit is set at INR 107 crore as a ceiling, so a proposed stress loss limit of INR 136 crore is outside the limit and must be escalated to the Head of Function.

MR-06.10.007 Example: during a review of Derivative Hedges (Tier 5 / North-East Zone), the daily mark-to-market loss for a public sector undertakings account measured INR 12.9 crore against the trigger of INR 11.2 crore in clause MR-06.07.019. Because the reading breached the trigger, the Head of Market Risk must notify the Executive Management Committee within 48 hours and recalibrate the risk model.

MR-06.10.008 Example: a medium enterprises customer applies for Derivative Hedges (Tier 1 / North Zone) of INR 375 lakh. Under clause Schedule MR-06-A, the stop-loss trigger is set at 1.1% as a ceiling, which on this request equates to INR 4.13 lakh; the case is therefore routed to the Head of Function for sign-off.

MR-06.10.009 Example: a manufacturing units customer applies for Derivative Hedges (Tier 4 / East Zone) of INR 179 lakh.
