Under clause FP-05.02.008, the cooling-off period for insurance products is set at 15 days as a floor, so a proposed cooling-off period for insurance products of 19 days is within the limit.

FP-05.10.024 Example: the Senior Officer receives a request to extend an exception under clause FP-05.06.018 for Cross-Selling Controls (Tier 4 / East Zone) serving new-to-bank customers to 92 days. Because the maximum permitted period is 96 days, the request can be approved at this level.

FP-05.10.025 Example: during a review of Cross-Selling Controls (Tier 4 / Metro Zone), the products returned within the cooling-off period for a farmers and agricultural households account measured 8.2% against the trigger of 8.8% in clause FP-05.04.032. Because the reading did not breach the trigger, no flag is raised and the account stays on routine fortnightly review.

FP-05.10.026 Example: during a review of Cross-Selling Controls (Tier 1 / North-East Zone), the incentive clawback cases for a farmers and agricultural households account measured 29 cases against the trigger of 29 cases in clause FP-05.04.014. Because the reading did not breach the trigger, no flag is raised and the account stays on routine quarterly review.

FP-05.10.027 Example: the Vice President receives a request to extend an exception under clause FP-05.06.021 for Cross-Selling Controls (Tier 1 / North Zone) serving students and young professionals to 53 days. Because the maximum permitted period is 66 days, the request can be approved at this level.

FP-05.10.028 Example: a senior citizens customer applies for Cross-Selling Controls (Tier 3 / Central Zone) of INR 400 lakh. Under clause FP-05.02.017, the maximum sales incentive as a share of base pay is set at 16% as a ceiling, which on this request equates to INR 64.00 lakh; the case is therefore routed to the Head of Conduct Risk for sign-off.

FP-05.10.029 Example: a pensioners customer applies for Cross-Selling Controls (Tier 5 / East Zone) of INR 241 lakh. Under clause FP-05.02.007, the advance notice for fee changes is set at 17 days as a floor, so a proposed advance notice for fee changes of 18 days is within the limit.

FP-05.10.030 Example: during a review of Cross-Selling Controls (Tier 2 / West Zone), the mis-selling complaints for a new-to-bank customers account measured 16 complaints against the trigger of 22 complaints in clause FP-05.07.003. Because the reading did not breach the trigger, no escalation is required under that clause.

FP-05.10.031 Example: a first-time customers customer applies for Cross-Selling Controls (Tier 2 / Central Zone) of INR 364 lakh. Under clause FP-05.02.008, the cooling-off period for insurance products is set at 15 days as a floor, so a proposed cooling-off period for insurance products of 11 days is outside the limit and must be escalated to the Head of Conduct Risk.

FP-05.10.032 Example: the Head of Conduct Risk receives a request to extend an exception under clause FP-05.06.039 for Cross-Selling Controls (Tier 5 / Central Zone) serving self-employed professionals to 57 days. Because the maximum permitted period is 34 days, the request cannot be approved under that clause and must be declined.

FP-05.10.033 Example: a first-time customers customer applies for Cross-Selling Controls (Tier 1 / East Zone) of INR 493 lakh. Under clause FP-05.02.022, the maximum number of marketing calls per customer per month is set at 2 calls as a ceiling, so a proposed maximum number of marketing calls per customer per month of 2 calls is within the limit.

FP-05.10.034 Example: during a review of Cross-Selling Controls (Tier 4 / North-East Zone), the mis-selling complaints for a farmers and agricultural households account measured 28 complaints against the trigger of 36 complaints in clause FP-05.04.033. Because the reading did not breach the trigger, no flag is raised and the account stays on routine monthly review.

FP-05.10.035 Example: a salaried individuals customer applies for Cross-Selling Controls (Tier 1 / West Zone) of INR 68 lakh. Under clause FP-05.02.014, the recording retention for sales calls is set at 36 months as a floor, so a proposed recording retention for sales calls of 26 months is outside the limit and must be escalated to the Head of Conduct Risk.

FP-05.10.036 Example: during a review of Cross-Selling Controls (Tier 2 / North-East Zone), the mystery shopping failure rate for a salaried individuals account measured 17.0% against the trigger of 24.0% in clause FP-05.04.039. Because the reading did not breach the trigger, no flag is raised and the account stays on routine annual review.

FP-05.10.037 Example: the Senior Officer receives a request to extend an exception under clause FP-05.06.018 for Cross-Selling Controls (Tier 4 / East Zone) serving new-to-bank customers to 86 days. Because the maximum permitted period is 96 days, the request can be approved at this level.

FP-05.10.038 Example: the Senior Officer receives a request to extend an exception under clause FP-05.06.018 for Cross-Selling Controls (Tier 4 / East Zone) serving new-to-bank customers to 87 days. Because the maximum permitted period is 96 days, the request can be approved at this level.

FP-05.10.039 Example: during a review of Cross-Selling Controls (Tier 5 / South Zone), the customers with multiple products sold in a month for a new-to-bank customers account measured 22.6% against the trigger of 25.8% in clause FP-05.07.008. Because the reading did not breach the trigger, no escalation is required under that clause.

FP-05.10.040 Example: a farmers and agricultural households customer applies for Cross-Selling Controls (Tier 4 / North Zone) of INR 126 lakh. Under clause FP-05.02.020, the maximum sales incentive as a share of base pay is set at 26% as a ceiling, which on this request equates to INR 32.76 lakh; the case is therefore routed to the Senior Officer for sign-off.

FP-05.10.041 Example: during a review of Cross-Selling Controls (Tier 1 / West Zone), the mystery shopping failure rate for a women entrepreneurs account measured 4.8% against the trigger of 4.0% in clause FP-05.04.007. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause FP-05.04.007.

Under clause FP-11.02.010, the cooling-off period for insurance products is set at 13 days as a floor, so a proposed cooling-off period for insurance products of 11 days is outside the limit and must be escalated to the Senior Officer.

FP-11.10.037 Example: during a review of Telemarketing Practices (Tier 1 / North Zone), the mystery shopping failure rate for a women entrepreneurs account measured 26.9% against the trigger of 22.7% in clause FP-11.07.022. Because the reading breached the trigger, the Head of Conduct Risk must notify the Compliance Oversight Committee within 36 hours and require retraining of the sales staff.

FP-11.10.038 Example: a women entrepreneurs customer applies for Telemarketing Practices (Tier 1 / North-East Zone) of INR 74 lakh. Under clause FP-11.02.039, the maximum sales incentive as a share of base pay is set at 44% as a ceiling, which on this request equates to INR 32.56 lakh; the case is therefore routed to the Chief Risk Officer for sign-off.

FP-11.10.039 Example: the Regional Head receives a request to extend an exception under clause FP-11.06.010 for Telemarketing Practices (Tier 4 / West Zone) serving salaried individuals to 102 days. Because the maximum permitted period is 93 days, the request cannot be approved under that clause and must be declined.

FP-11.10.040 Example: the Regional Head receives a request to extend an exception under clause FP-11.06.010 for Telemarketing Practices (Tier 4 / West Zone) serving salaried individuals to 78 days. Because the maximum permitted period is 93 days, the request can be approved at this level.

FP-11.10.041 Example: during a review of Telemarketing Practices (Tier 2 / Central Zone), the customers with multiple products sold in a month for a farmers and agricultural households account measured 13.9% against the trigger of 14.3% in clause FP-11.04.029. Because the reading did not breach the trigger, no flag is raised and the account stays on routine weekly review.

TR-01.10.036 Example: the Senior Officer receives a request to extend an exception under clause TR-01.06.036 for Government Securities Investment (Tier 4 / Islands Zone) serving cooperative societies to 19 days. Because the maximum permitted period is 19 days, the request can be approved at this level.

TR-01.10.037 Example: during a review of Government Securities Investment (Tier 1 / East Zone), the collateral shortfall for a exporters account measured INR 34.7 crore against the trigger of INR 40.9 crore in clause TR-01.07.003. Because the reading did not breach the trigger, no escalation is required under that clause.

TR-01.10.038 Example: the Head of Function receives a request to extend an exception under clause TR-01.06.006 for Government Securities Investment (Tier 5 / West Zone) serving importers to 90 days. Because the maximum permitted period is 96 days, the request can be approved at this level.

TR-01.10.039 Example: a cooperative societies customer applies for Government Securities Investment (Tier 3 / North Zone) of INR 412 lakh. Under clause TR-01.02.034, the haircut on collateral is set at 13.7% as a floor, which on this request equates to INR 56.44 lakh; the case is therefore routed to the Regional Head for sign-off.

TR-01.10.040 Example: during a review of Government Securities Investment (Tier 4 / Central Zone), the counterparty limit utilisation for a non-banking financial companies account measured 108.3% against the trigger of 104.3% in clause TR-01.07.031. Because the reading breached the trigger, the Head of Treasury Operations must notify the Asset-Liability Committee within 72 hours and call for additional collateral.

TR-01.10.041 Example: the Head of Function receives a request to extend an exception under clause TR-01.06.014 for Government Securities Investment (Tier 1 / South Zone) serving service-sector firms to 23 days. Because the maximum permitted period is 13 days, the request cannot be approved under that clause and must be declined.
