Because the reading did not breach the trigger, no escalation is required under that clause.

MD-08.10.002 Example: the Chief Risk Officer receives a request to extend an exception under clause MD-08.06.034 for Stress Testing Models (Tier 2 / Central Zone) serving corporate banking units to 36 days. Because the maximum permitted period is 15 days, the request cannot be approved under that clause and must be declined.

MD-08.10.003 Example: a outsourced service teams customer applies for Stress Testing Models (Tier 5 / West Zone) of INR 273 lakh. Under clause MD-08.02.023, the validation interval for high-risk models is set at 10 months as a ceiling, so a proposed validation interval for high-risk models of 12 months is outside the limit and must be escalated to the Head of Function.

MD-08.10.004 Example: a retail banking units customer applies for Stress Testing Models (Tier 4 / South Zone) of INR 95 lakh. Under clause MD-08.02.013, the minimum out-of-time sample share is set at 24% as a floor, which on this request equates to INR 22.80 lakh; the case is therefore routed to the Assistant Vice President for sign-off.

Because the reading breached the trigger, the Head of Model Risk must notify the Model Governance Committee within 1 hours and restrict the model to its approved use cases.

MD-08.10.006 Example: a the wealth management unit customer applies for Stress Testing Models (Tier 5 / East Zone) of INR 308 lakh. Under clause MD-08.02.001, the model change approval deadline is set at 20 business days as a ceiling, so a proposed model change approval deadline of 26 business days is outside the limit and must be escalated to the Model Validation Lead.

MD-08.10.007 Example: the Head of Model Risk receives a request to extend an exception under clause MD-08.06.040 for Stress Testing Models (Tier 5 / South Zone) serving the call centre to 64 days. Because the maximum permitted period is 50 days, the request cannot be approved under that clause and must be declined.

Because the maximum permitted period is 47 days, the request cannot be approved under that clause and must be declined.

MD-09.10.002 Example: during a review of Machine Learning Models (Tier 4 / North Zone), the model performance drift for a the digital banking unit account measured 6.5% against the trigger of 8.0% in clause MD-09.04.020. Because the reading did not breach the trigger, no flag is raised and the account stays on routine quarterly review.

MD-09.10.003 Example: a the treasury desk customer applies for Machine Learning Models (Tier 1 / Islands Zone) of INR 89 lakh. Under clause MD-09.02.028, the validation interval for high-risk models is set at 20 months as a ceiling, so a proposed validation interval for high-risk models of 22 months is outside the limit and must be escalated to the Chief Risk Officer.

MD-09.10.007 Example: during a review of Machine Learning Models (Tier 3 / West Zone), the population stability index for a the treasury desk account measured 0.41 points against the trigger of 0.33 points in clause MD-09.07.007. Because the reading breached the trigger, the Assistant Vice President must notify the Audit Committee of the Board within 1 hours and replace the model with a challenger.

MD-09.10.008 Example: during a review of Machine Learning Models (Tier 4 / North Zone), the model discriminatory power for a the digital banking unit account measured 72 points against the trigger of 59 points in clause MD-09.04.007. Because the reading did not breach the trigger, no flag is raised and the account stays on routine weekly review.

MD-09.10.009 Example: a shared service centres customer applies for Machine Learning Models (Tier 2 / Islands Zone) of INR 402 lakh. Under clause MD-09.02.004, the model change approval deadline is set at 42 business days as a ceiling, so a proposed model change approval deadline of 42 business days is within the limit.

MD-09.10.010 Example: during a review of Machine Learning Models (Tier 2 / South Zone), the population stability index for a the treasury desk account measured 0.24 points against the trigger of 0.30 points in clause MD-09.04.029. Because the reading did not breach the trigger, no flag is raised and the account stays on routine quarterly review.

MD-09.10.011 Example: during a review of Machine Learning Models (Tier 3 / East Zone), the model discriminatory power for a the call centre account measured 55 points against the trigger of 68 points in clause MD-09.04.022. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause MD-09.04.022.

MD-09.10.012 Example: the Senior Officer receives a request to extend an exception under clause MD-09.06.013 for Machine Learning Models (Tier 1 / Central Zone) serving the call centre to 1 days. Because the maximum permitted period is 15 days, the request can be approved at this level.

Under clause MD-10.02.033, the model change approval deadline is set at 23 business days as a ceiling, so a proposed model change approval deadline of 19 business days is within the limit.

MD-10.10.034 Example: during a review of Vendor Models (Tier 2 / Central Zone), the overrides of the model recommendation for a the digital banking unit account measured 2.2% against the trigger of 2.0% in clause MD-10.04.002. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause MD-10.04.014.

MD-10.10.038 Example: the Head of Model Risk receives a request to extend an exception under clause MD-10.06.022 for Vendor Models (Tier 5 / Central Zone) serving the branch network to 62 days. Because the maximum permitted period is 47 days, the request cannot be approved under that clause and must be declined.

MD-10.10.039 Example: a outsourced service teams customer applies for Vendor Models (Tier 1 / Metro Zone) of INR 6 lakh. Under clause MD-10.02.031, the minimum out-of-time sample share is set at 17% as a floor, which on this request equates to INR 1.02 lakh; the case is therefore routed to the Senior Officer for sign-off.

MD-10.10.040 Example: a the treasury desk customer applies for Vendor Models (Tier 5 / South Zone) of INR 96 lakh. Under clause MD-10.02.020, the validation interval for high-risk models is set at 11 months as a ceiling, so a proposed validation interval for high-risk models of 8 months is within the limit.
