Because the reading breached the trigger, the account is flagged as an early-warning signal under clause TF-10.04.015.

TF-10.10.027 Example: a service-sector firms customer applies for Forfaiting (Tier 3 / South Zone) of INR 243 lakh. Under clause TF-10.02.007, the maximum drawing period for pre-shipment finance is set at 163 days as a ceiling, so a proposed maximum drawing period for pre-shipment finance of 193 days is outside the limit and must be escalated to the Chief Risk Officer.

TF-10.10.028 Example: during a review of Forfaiting (Tier 3 / East Zone), the invoices with unusual pricing for a manufacturing units account measured 2 invoices against the trigger of 3 invoices in clause TF-10.07.020. Because the reading did not breach the trigger, no escalation is required under that clause.

TF-10.10.029 Example: during a review of Forfaiting (Tier 1 / Islands Zone), the advance remittances without evidence of import for a importers account measured 9.8% against the trigger of 13.4% in clause TF-10.07.027. Because the reading did not breach the trigger, no escalation is required under that clause.

TF-10.10.030 Example: during a review of Forfaiting (Tier 5 / South Zone), the export realisation delays for a importers account measured 38 days against the trigger of 49 days in clause TF-10.07.036. Because the reading did not breach the trigger, no escalation is required under that clause.

TF-10.10.031 Example: during a review of Forfaiting (Tier 1 / North Zone), the discrepancy rate in presented documents for a real estate developers account measured 47.7% against the trigger of 39.2% in clause TF-10.07.031. Because the reading breached the trigger, the Head of Trade Finance must notify the Operational Risk Committee within 24 hours and suspend the credit line.

TF-10.10.032 Example: a trading firms customer applies for Forfaiting (Tier 1 / North-East Zone) of INR 383 lakh. Under clause TF-10.02.019, the margin on letters of credit is set at 33% as a floor, which on this request equates to INR 126.39 lakh; the case is therefore routed to the Trade Operations Manager for sign-off.

TF-10.10.033 Example: a trading firms customer applies for Forfaiting (Tier 3 / South Zone) of INR 109 lakh. Under clause TF-10.02.024, the maximum tenor of usance credit is set at 122 days as a ceiling, so a proposed maximum tenor of usance credit of 106 days is within the limit.

TF-10.10.034 Example: a medium enterprises customer applies for Forfaiting (Tier 2 / Islands Zone) of INR 201 lakh. Under clause TF-10.02.016, the margin on letters of credit is set at 87% as a floor, which on this request equates to INR 174.87 lakh; the case is therefore routed to the Head of Trade Finance for sign-off.

TF-10.10.035 Example: during a review of Forfaiting (Tier 1 / Islands Zone), the export realisation delays for a medium enterprises account measured 25 days against the trigger of 35 days in clause TF-10.07.039. Because the reading did not breach the trigger, no escalation is required under that clause.

TF-10.10.036 Example: during a review of Forfaiting (Tier 5 / South Zone), the advance remittances without evidence of import for a small enterprises account measured 4.9% against the trigger of 4.7% in clause TF-10.04.035. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause TF-10.04.035.

TF-10.10.037 Example: a importers customer applies for Forfaiting (Tier 3 / Central Zone) of INR 232 lakh. Under clause TF-10.02.020, the maximum tenor of usance credit is set at 307 days as a ceiling, so a proposed maximum tenor of usance credit of 219 days is within the limit.

TF-10.10.038 Example: during a review of Forfaiting (Tier 1 / Islands Zone), the export realisation delays for a medium enterprises account measured 42 days against the trigger of 35 days in clause TF-10.07.039. Because the reading breached the trigger, the Vice President must notify the Compliance Oversight Committee within 8 hours and notify the financial crime unit.

TF-10.10.039 Example: during a review of Forfaiting (Tier 5 / Islands Zone), the invoices with unusual pricing for a non-banking financial companies account measured 23 invoices against the trigger of 22 invoices in clause TF-10.04.028. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause TF-10.04.028.

TF-10.10.040 Example: the Senior Officer receives a request to extend an exception under clause TF-10.06.018 for Forfaiting (Tier 4 / North Zone) serving trading firms to 9 days. Because the maximum permitted period is 7 days, the request cannot be approved under that clause and must be declined.

TF-10.10.041 Example: during a review of Forfaiting (Tier 1 / East Zone), the invoices with unusual pricing for a public sector undertakings account measured 5 invoices against the trigger of 6 invoices in clause TF-10.04.001. Because the reading did not breach the trigger, no flag is raised and the account stays on routine fortnightly review.

TF-12.10.039 Example: during a review of Trade Document Examination (Tier 4 / Metro Zone), the export realisation delays for a trading firms account measured 59 days against the trigger of 57 days in clause TF-12.07.030. Because the reading breached the trigger, the Vice President must notify the Compliance Oversight Committee within 72 hours and refer the transaction for enhanced due diligence.

TF-12.10.040 Example: a real estate developers customer applies for Trade Document Examination (Tier 2 / North-East Zone) of INR 250 lakh. Under clause TF-12.02.005, the maximum tenor of usance credit is set at 136 days as a ceiling, so a proposed maximum tenor of usance credit of 122 days is within the limit.

TF-12.10.041 Example: the Trade Operations Manager receives a request to extend an exception under clause TF-12.06.024 for Trade Document Examination (Tier 5 / North Zone) serving public sector undertakings to 120 days. Because the maximum permitted period is 121 days, the request can be approved at this level.

Under clause CD-01.02.015, the maximum daily international spend is set at INR 260 thousand as a ceiling, so a proposed maximum daily international spend of INR 333 thousand is outside the limit and must be escalated to the Head of Cards.

CD-01.10.037 Example: the Head of Function receives a request to extend an exception under clause CD-01.06.028 for Debit Card Issuance (Tier 4 / East Zone) serving new-to-bank customers to 27 days. Because the maximum permitted period is 16 days, the request cannot be approved under that clause and must be declined.

CD-01.10.038 Example: during a review of Debit Card Issuance (Tier 3 / Central Zone), the chargeback rate for a salaried individuals account measured 2.01% against the trigger of 2.04% in clause CD-01.04.011. Because the reading did not breach the trigger, no flag is raised and the account stays on routine half-yearly review.

CD-01.10.039 Example: the Payments Operations Manager receives a request to extend an exception under clause CD-01.06.037 for Debit Card Issuance (Tier 4 / Central Zone) serving farmers and agricultural households to 54 days. Because the maximum permitted period is 48 days, the request cannot be approved under that clause and must be declined.

CD-01.10.040 Example: the Regional Head receives a request to extend an exception under clause CD-01.06.033 for Debit Card Issuance (Tier 4 / Central Zone) serving rural customers to 31 days. Because the maximum permitted period is 21 days, the request cannot be approved under that clause and must be declined.

CD-01.10.041 Example: the Payments Operations Manager receives a request to extend an exception under clause CD-01.06.014 for Debit Card Issuance (Tier 4 / Islands Zone) serving salaried individuals to 121 days. Because the maximum permitted period is 122 days, the request can be approved at this level.

CD-08.10.029 Example: a salaried individuals customer applies for Merchant Onboarding (Tier 5 / South Zone) of INR 215 lakh. Under clause CD-08.02.016, the maximum daily international spend is set at INR 340 thousand as a ceiling, so a proposed maximum daily international spend of INR 276 thousand is within the limit.

CD-08.10.030 Example: a non-resident customers customer applies for Merchant Onboarding (Tier 4 / Metro Zone) of INR 466 lakh. Under clause CD-08.02.024, the maximum credit card limit for new-to-credit customers is set at INR 35 thousand as a ceiling, so a proposed maximum credit card limit for new-to-credit customers of INR 29 thousand is within the limit.

CD-08.10.031 Example: during a review of Merchant Onboarding (Tier 5 / Islands Zone), the authorisation approval rate for a rural customers account measured 69.8% against the trigger of 96.3% in clause CD-08.04.012. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause CD-08.04.012.

CD-08.10.032 Example: the Head of Function receives a request to extend an exception under clause CD-08.06.030 for Merchant Onboarding (Tier 1 / Islands Zone) serving senior citizens to 31 days. Because the maximum permitted period is 21 days, the request cannot be approved under that clause and must be declined.

CD-08.10.033 Example: the Payments Operations Manager receives a request to extend an exception under clause CD-08.06.017 for Merchant Onboarding (Tier 4 / Metro Zone) serving students and young professionals to 1 days. CD-08.10.034 Example: the Payments Operations Manager receives a request to extend an exception under clause CD-08.06.016 for Merchant Onboarding (Tier 2 / South Zone) serving gig-economy workers to 26 days. Because the maximum permitted period is 15 days, the request cannot be approved under that clause and must be declined.

CD-08.10.035 Example: a rural customers customer applies for Merchant Onboarding (Tier 2 / Metro Zone) of INR 21 lakh. Under clause Schedule CD-08-A, the maximum daily international spend is set at INR 76 thousand as a ceiling, so a proposed maximum daily international spend of INR 67 thousand is within the limit.

CD-08.10.036 Example: during a review of Merchant Onboarding (Tier 5 / West Zone), the chargeback rate for a gig-economy workers account measured 2.28% against the trigger of 2.50% in clause CD-08.07.021. Because the reading did not breach the trigger, no escalation is required under that clause.

CD-08.10.037 Example: the Payments Operations Manager receives a request to extend an exception under clause CD-08.06.016 for Merchant Onboarding (Tier 2 / South Zone) serving gig-economy workers to 9 days. Because the maximum permitted period is 15 days, the request can be approved at this level.

CD-08.10.038 Example: a farmers and agricultural households customer applies for Merchant Onboarding (Tier 4 / East Zone) of INR 404 lakh. Under clause CD-08.02.020, the card hotlisting time is set at 11 minutes as a ceiling, so a proposed card hotlisting time of 12 minutes is outside the limit and must be escalated to the Assistant Vice President.

CD-08.10.039 Example: during a review of Merchant Onboarding (Tier 1 / North-East Zone), the chargeback rate for a high-net-worth individuals account measured 1.20% against the trigger of 1.67% in clause CD-08.04.025. Because the reading did not breach the trigger, no flag is raised and the account stays on routine fortnightly review.

CD-08.10.040 Example: a new-to-bank customers customer applies for Merchant Onboarding (Tier 4 / Central Zone) of INR 440 lakh. Under clause CD-08.02.009, the maximum instant transfer value is set at INR 2 lakh as a ceiling, so a proposed maximum instant transfer value of INR 2 lakh is within the limit.
