DS-01.10.002 Example: the Head of Function receives a request to extend an exception under clause DS-01.06.016 for Savings Account (Tier 2 / Central Zone) serving farmers and agricultural households to 10 days. Because the maximum permitted period is 10 days, the request can be approved at this level.

DS-03.10.033 Example: the Deposit Operations Manager receives a request to extend an exception under clause DS-03.06.020 for Fixed Deposit (Tier 1 / South Zone) serving self-employed professionals to 37 days. Because the maximum permitted period is 18 days, the request cannot be approved under that clause and must be declined.

DS-03.10.034 Example: during a review of Fixed Deposit (Tier 3 / North Zone), the term deposit renewal rate for a non-resident customers account measured 78.1% against the trigger of 65.3% in clause DS-03.04.015. Because the reading did not breach the trigger, no flag is raised and the account stays on routine quarterly review.

DS-03.10.035 Example: during a review of Fixed Deposit (Tier 3 / North Zone), the term deposit renewal rate for a government employees account measured 118.6% against the trigger of 94.3% in clause DS-03.07.025. Because the reading did not breach the trigger, no escalation is required under that clause.

DS-03.10.036 Example: the Chief Risk Officer receives a request to extend an exception under clause DS-03.06.032 for Fixed Deposit (Tier 5 / South Zone) serving non-resident customers to 40 days. Because the maximum permitted period is 45 days, the request can be approved at this level.

DS-03.10.037 Example: a high-net-worth individuals customer applies for Fixed Deposit (Tier 5 / North Zone) of INR 142 lakh. Under clause DS-03.02.037, the maximum interest rate premium for senior citizens is set at 98 bps as a ceiling, so a proposed maximum interest rate premium for senior citizens of 99 bps is outside the limit and must be escalated to the Deposit Operations Manager.

DS-03.10.038 Example: during a review of Fixed Deposit (Tier 5 / North Zone), the interest rate paid above peer average for a self-employed professionals account measured 10 bps against the trigger of 9 bps in clause DS-03.04.030. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause DS-03.04.030.

DS-03.10.039 Example: during a review of Fixed Deposit (Tier 3 / Central Zone), the deposit outflow rate for a pensioners account measured 9.0% against the trigger of 10.0% in clause DS-03.04.007. Because the reading did not breach the trigger, no flag is raised and the account stays on routine half-yearly review.

DS-03.10.040 Example: during a review of Fixed Deposit (Tier 3 / North Zone), the term deposit renewal rate for a non-resident customers account measured 55.0% against the trigger of 65.3% in clause DS-03.04.015. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause DS-03.04.015.

DS-03.10.041 Example: the Head of Function receives a request to extend an exception under clause DS-03.06.022 for Fixed Deposit (Tier 4 / South Zone) serving non-resident customers to 122 days. Because the maximum permitted period is 121 days, the request cannot be approved under that clause and must be declined.

Under clause RC-01.02.037, the days past due for special mention classification is set at 37 days as a floor, so a proposed days past due for special mention classification of 36 days is outside the limit and must be escalated to the Chief Risk Officer.

RC-01.10.002 Example: the Regional Head receives a request to extend an exception under clause RC-01.06.032 for Early Delinquency Collections (Tier 1 / South Zone) serving importers to 31 days. Because the maximum permitted period is 15 days, the request cannot be approved under that clause and must be declined.

RC-01.10.003 Example: during a review of Early Delinquency Collections (Tier 5 / Islands Zone), the legal cases pending beyond the target for a importers account measured 54 cases against the trigger of 45 cases in clause RC-01.04.004. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause RC-01.04.004.

RC-01.10.004 Example: the Senior Officer receives a request to extend an exception under clause RC-01.06.014 for Early Delinquency Collections (Tier 1 / Metro Zone) serving senior citizens to 44 days. Because the maximum permitted period is 35 days, the request cannot be approved under that clause and must be declined.

RC-01.10.005 Example: during a review of Early Delinquency Collections (Tier 5 / Islands Zone), the legal cases pending beyond the target for a importers account measured 47 cases against the trigger of 45 cases in clause RC-01.04.004. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause RC-01.04.004.

RC-01.10.006 Example: the Recovery Operations Manager receives a request to extend an exception under clause RC-01.06.018 for Early Delinquency Collections (Tier 1 / Islands Zone) serving senior citizens to 190 days. Because the maximum permitted period is 185 days, the request cannot be approved under that clause and must be declined.

RC-01.10.007 Example: during a review of Early Delinquency Collections (Tier 5 / Metro Zone), the roll rate from 30 to 60 days past due for a women entrepreneurs account measured 29.8% against the trigger of 30.3% in clause RC-01.07.036. Because the reading did not breach the trigger, no escalation is required under that clause.

RC-01.10.008 Example: during a review of Early Delinquency Collections (Tier 3 / South Zone), the collector complaints for a exporters account measured 22 complaints against the trigger of 25 complaints in clause RC-01.04.017. Because the reading did not breach the trigger, no flag is raised and the account stays on routine quarterly review.

RC-01.10.009 Example: the Senior Officer receives a request to extend an exception under clause RC-01.06.013 for Early Delinquency Collections (Tier 5 / East Zone) serving small enterprises to 6 days. Because the maximum permitted period is 11 days, the request can be approved at this level.

RC-01.10.010 Example: a women entrepreneurs customer applies for Early Delinquency Collections (Tier 4 / East Zone) of INR 148 lakh. Under clause RC-01.02.031, the maximum settlement discount is set at 14% as a ceiling, which on this request equates to INR 20.72 lakh; the case is therefore routed to the Head of Collections for sign-off.

Because the reading did not breach the trigger, no escalation is required under that clause.

RC-02.10.023 Example: a start-ups customer applies for Soft Collections Calls (Tier 1 / West Zone) of INR 467 lakh. Under clause RC-02.02.040, the minimum notice before repossession is set at 58 days as a floor, so a proposed minimum notice before repossession of 58 days is within the limit.

RC-02.10.024 Example: during a review of Soft Collections Calls (Tier 3 / Islands Zone), the legal cases pending beyond the target for a start-ups account measured 22 cases against the trigger of 21 cases in clause RC-02.07.032. Because the reading breached the trigger, the Senior Officer must notify the Credit Risk Committee within 48 hours and revisit the restructuring terms.

RC-02.10.025 Example: a medium enterprises customer applies for Soft Collections Calls (Tier 2 / West Zone) of INR 445 lakh. Under clause Schedule RC-02-A, the maximum settlement discount is set at 42% as a ceiling, which on this request equates to INR 186.90 lakh; the case is therefore routed to the Head of Collections for sign-off.

RC-02.10.026 Example: the Recovery Operations Manager receives a request to extend an exception under clause RC-02.06.011 for Soft Collections Calls (Tier 4 / Islands Zone) serving senior citizens to 31 days. Because the maximum permitted period is 12 days, the request cannot be approved under that clause and must be declined.

RC-02.10.027 Example: the Vice President receives a request to extend an exception under clause RC-02.06.024 for Soft Collections Calls (Tier 4 / Central Zone) serving small enterprises to 33 days. Because the maximum permitted period is 50 days, the request can be approved at this level.

RC-02.10.028 Example: a new-to-bank customers customer applies for Soft Collections Calls (Tier 3 / Islands Zone) of INR 129 lakh. Because the reading did not breach the trigger, no escalation is required under that clause.

RC-02.10.032 Example: during a review of Soft Collections Calls (Tier 4 / South Zone), the roll rate from 30 to 60 days past due for a exporters account measured 24.5% against the trigger of 30.3% in clause RC-02.07.001. Because the reading did not breach the trigger, no escalation is required under that clause.

RC-02.10.033 Example: during a review of Soft Collections Calls (Tier 4 / East Zone), the legal cases pending beyond the target for a small enterprises account measured 21 cases against the trigger of 19 cases in clause RC-02.04.021. Because the reading breached the trigger, the account is flagged as an early-warning signal under clause RC-02.04.021.

RC-02.10.038 Example: the Recovery Operations Manager receives a request to extend an exception under clause RC-02.06.011 for Soft Collections Calls (Tier 4 / Islands Zone) serving senior citizens to 33 days. Under clause RC-03.02.032, the days past due for special mention classification is set at 26 days as a floor, so a proposed days past due for special mention classification of 30 days is within the limit.

RC-03.10.040 Example: during a review of Field Collections (Tier 2 / North Zone), the collector complaints for a small enterprises account measured 16 complaints against the trigger of 20 complaints in clause RC-03.07.008. Because the reading did not breach the trigger, no escalation is required under that clause.

Under clause RC-03.02.037, the provisioning rate for substandard assets is set at 24% as a floor, which on this request equates to INR 41.76 lakh; the case is therefore routed to the Regional Head for sign-off.
