Compliance Policy

QA test document — separate compliance source for multi-document citation and unrelated-topic testing

Policy Rules

CP-01 Customer identity verification must be completed before account opening.

Expected: The system should return this requirement when asked.

CP-02 Enhanced due diligence is required when a transaction meets the institution's high-risk criteria.

Expected: The system should state the requirement without inventing a threshold not present here.

CP-03 This policy does not define loan LTV ratios.

Expected: LTV questions should not be answered from this document.

QA Trap Questions

T1 Is identity verification required before account opening?

Expected: Yes.

T2 Does this policy specify a gold-loan LTV?

Expected: No.

T3 What exact high-risk transaction amount triggers enhanced due diligence?

Expected: The document does not specify an amount; the AI must not invent one.
